

## Grow Beyond from (awe)some teams to Great Teams

### Inspirational talk

In Grow Beyond we work with large organizations transforming their organizations to meet future needs for

- rapid reaction to changes in the marketplace,
- even faster innovation,
- ability to attract and sustain the best talents

The effort for organizations to achieve business agility is transformative and requires significant changes to how we organize and lead the organization. One of the cornerstones to succeed this transformation is to understand and develop a Great Teams understanding.

In this inspirational talk I will present:

- An overview of what is needed for organizations in the future
- Business value and purpose
- How to do a light weight diagnose of your organization and teams dynamics
- Deep dive into Great Teams to understand what contributes to success or failure
- How to accelerate a team to become a great team
- Experiences from our Great Team Workshop

Grow Beyond's Great Team Workshop works with a real team from an organization and takes that team through exercises where the team can be the best version of itself. The workshop also helps the team improve team dynamics e.g. collaboration, communication, trust, speed etc. The workshop brings insight into the bits and pieces and dynamics that creates a great team and allows the participating team to understand how they can be an even greater team than they already are.

Together with experienced people from Special Forces or former elite soldiers Grow Beyond delivers a workshop including selected exercises and theory, which can be transformed into the participants daily workday.
